

## How to safely continue wearing contact lenses

Contact lenses can be worn safely while preventing potential contamination by following the proper contact lens care instructions, which include thoroughly washing, cleaning, and drying your hands prior to handling contact lenses. You can find more information by clicking below.

### Wear & Care

#### Good hygiene practices are now as important as ever

As always, wash your hands with antibacterial soap and water before putting on or taking off your contact lenses. Access official guidelines from World Health Organization [here](#).

#### COVID-19 AND CONTACT LENS WEAR

#### What do Contact Lens Wearers Need to Know?

#### Free shipping on ACUVUE® products

While the best course of action has been to close our physical locations to limit in-person interaction, you can still order your contact lenses by contacting us directly.

## We're here to help in whatever way we can

For further information about contact lenses, all the information you need is provided on the ACUVUE® website below. Alternatively, you can contact us directly.

We hope you and your families stay healthy and we appreciate your support in keeping our global community safe.

**Important information for contact lens wearers:** ACUVUE® Contact Lenses are available by prescription only for vision correction. An eye care professional will determine whether contact lenses are right for you. Although rare, serious eye problems can develop while wearing contact lenses. To help avoid these problems, follow the wear and replacement schedule and the lens care instructions provided by your eye care professional. Do not wear contact lenses if you have an eye infection, or experience eye discomfort, excessive tearing, vision changes, redness or other eye problems. If one of these conditions occurs, remove the lens and contact your eye care professional immediately. For more information on proper wear, care and safety, talk to your eye care professional and ask for a Patient Instruction Guide, call 1-800-267-5098 or visit [acuvue.ca](http://acuvue.ca).
